

### Color Your World With Love

These are a series of books about a man who found God the hard way prison. I was the fool who in my heart would not hear God and listen. Perhaps the world has you down life is hard but world still spins round. Doors may only open from the outside. Perhaps you're paying a bill because the Devil lied. Just know God has been there as well, did not enjoy the darkest side of hell. Our poor Savior died upon a cross, His blood drops fell to save the lost. Friends God loves you so much. Amen...

Do you think your sins are too much for God to heal. Like Esau you think you traded your life in for a simple meal. I assure you it is not the end: For Noah worked hard needed a chainsaw and would have done the same as Esau just for a chainsaw known as a Stihl. What about the prophet Abraham, God tested his love, with knife in hand. God held him back from slaying his promised son. Our Father in Heaven gave his all He gave his only beggotton Son. We live in a sometimes cruel world, but through Jesus, victory is won.

When problems arise just remember God's Son died to. When the pain is too much know God is love and He loves you. Amen...

People are hurting in this world and I see it every day. Perhaps people feel because we live in America and

have this and that, that the enemy still does not bombard us with negativity. For years I struggled fears and problems even after I became a Christian back in 1998. Now ten years later I still battle mental illness and stressful memories from the past. I have seen so much hatred I had enough of it and between that and the mental insanity, I couldn't write the way I wanted to. I work extremely hard knowing the grace in which I have been given. God loves us so much, but He also wants us to love Him in return. In loving God He wants our all. Some may think there is something wrong with the word "Worship." God is this master mechanic. He invented us out of the dust of the earth. He gave us life and love and healing and To top it off God gave

everything duplicate the Devil is

forgave us of all the things we have ever done wrong. such a beautiful paradise earth to live in. What are we doing with it: we are destroying it over greed! In six days God made He called "good," and who in God's creation has ever been able to that? God is proving that the Devil cannot rule this planet. He is proving wrong and God is right.

I used to worry over a lot of things. Money was a big factor. Trying to supply your basic needs, and taking care of bills is hard for me, but we just do the best we can. I really tried with the right motives to write books that were good, however, with a brain functioning not quite as sharp as Zipporah's stone, it is hard to do things sometimes. I used to have some wicked nightmares right after I switched from a hard core atheist to a total Jesus lover. I know it hasn't always reflected in my writings but in my heart I know just how much I love Jesus. Prison changed me and it improved me. I know I am cynical and I have my problems but I'm learning never to give up and keep on loving, Amen. 2007
